### **STRATEGIC OBJECTIVE #4**

**(Management of Productive, Life-Sustaining Natural Resources Strengthened)**

**MICROHYDRO POWER.** A team from the Alliance for Mindanao Off-grid Renewable Energy (AMORE) Program inspects the desilting basin of a 7-kilowatt microhydro power (MHP) system that has energized 82 households in remote sitio Lam-alis, barangay Datalblao in Columbio, Sultan Kudarat. The desilting basin filters materials that clog the water flow. AMORE is a partnership of the US Agency for International Development (USAID), the Mirant Phils. Foundation, the Department of Energy (DoE), the Autonomous Region in Muslim Mindanao (ARMM) and Winrock International.
